

# ASIAN AMERICANS IN DC SPEAK ...

**36%** of Asian Americans in DC are LEP, compared to **5%** of the entire DC's population are LEP

Data on limited English proficient (LEP) Asian American and Pacific Islander (AAPI) DC residents is from data set: *2013 American Community Survey 5 year estimates of Asian and Pacific Island languages*. The language data captures information about populations ages 5 and up. Data on Asian and Pacific Island Languages does not include Indic languages (Hindi, Bengali, Punjabi, etc...) due to Census classification of such languages under the broad Indo-European classification.

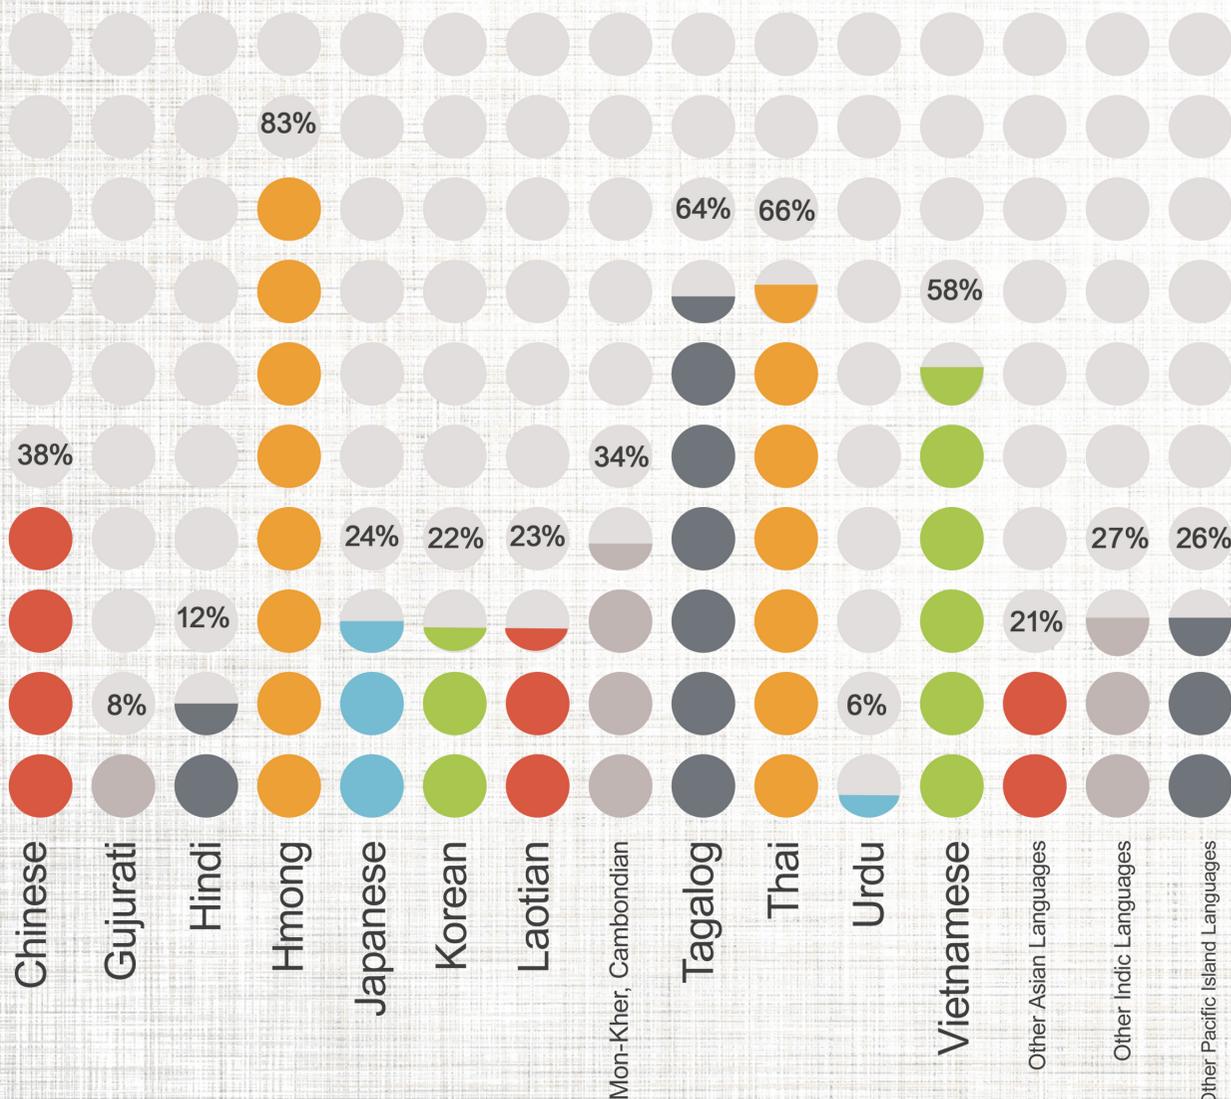

**51%** of AAPI seniors are LEP

**19.4%** of AAPI households in DC are LEP

**18%** of working age AAPIs are LEP

## PERCENT OF LEP BY AAPI LANGUAGE

11% of native born DC AAPIs are LEP compared to 4% of the entire native born DC population are LEP

41% of foreign born AAPIs are LEP compared to 30% of the entire foreign born DC population are LEP
